Ornamental
Fall of 1915

FOR NURSERYMEN ONLY

INTRODUCTION

In presenting this, our first, wholesale price list and catalogue we cannot help but look back with pride upon what we have accomplished during the last sixteen months.

In March, 1914, with the frost barely out of the ground we began with a large force of teams and men to reclaim some of the most valuable land in Central Washington, land that has been in sage brush since the State was a Territory.

How well we have succeeded is best shown by a comparison of the two illustrations on page 13 showing the land as it was when we began our clearing and again on June 30th, 1915, reproducing nursery stock.

While our knowledge of the nursery business has been large and varied it was all obtained in the nurseries of Holland, and on account of the difference in soil and climatic conditions we soon found that we had a Herculean task to perform, but with perseverance and a bull-dog tenacity of purpose we succeeded in bringing our land into bearing and now have 140 acres representing an oasis of flowering shrubs, ornamental and shade trees, roses, coniferous evergreens and a complete line of one and two year old fruit trees and fruit tree seedlings second to none in the Pacific Northwest.

In presenting this booklet to the trade we do so with pleasurable anticipation, knowing that a nurseryman always delights in placing his orders where he is sure QUALITY is the watchword of the grower and that his orders are always sure of fulfillment no matter how large the quantity; for, as we are connected so directly with two of the largest growers in France and Holland all orders sent to us will be filled either from our own large stock or imported from Europe. Import orders however, must reach us not later than October 15th.

We have received a great many inquiries regarding our line and we would appreciate it very much indeed if all lists of wants were mailed as soon as possible after the receipt of this catalogue so that they will receive our prompt attention.

Ornamental and Fruit Nursery Co.,

JOHN RYKEN, President

July 10th, 1915.

Wapato, Wash.

Terms and Conditions of Sale

PRICES: We have adopted as a standard the present market quotations and as a consequence all prices mentioned are subject to change without notice. We solicit the correspondence of prospective purchasers and are always pleased to quote special prices on lists of wants calling for quantities larger than those enumerated in this list. However, these prices are quoted with the understanding that the quantity ordered is in keeping with the price quoted; in other words, these are wholesale prices in wholesale quantity only. Orders for small quantities, whether from a nurseryman or not, will be regarded as retail orders and priced accordingly. Our prices are f. o. b. nursery and all goods are offered subject to being unsold on receipt of order.

PACKING: Our goods are dug, graded and packed under our personal supervision as we desire at all times to have our shipments so packed that the goods will arrive at their destination in first class condition. Boxes and other packing material will be charged for at exact cost.

SHIPPING: We can ship via the Northern Pacific or Oregon-Washington Navigation and Railroad Co., American or Northern Express or Parcel Post. All shipments are made with the understanding that our liability ceases as soon as goods are in the hands of a common carrier. In ordering goods please state how you wish them sent. If no instructions are given we will use our own judgment as to the better method.

TERMS: Cash or security before shipment of goods, except with established firms; if the latter are unknown to us satisfactory references will be required before goods are shipped. Orders to be sent C. O. D. must be accompanied by one-fourth cash. All agreements and contracts are made subject to losses beyond our control.

GUARANTY: We always use every effort possible to keep our stock true to name and should any prove not to be so we will replace it free of charge or refund the original purchase price, but all orders are accepted by us upon the distinct understanding that we will not be responsible for any further liability or damage.

CLAIMS: We will not entertain claims for quality or quantity unless presented within ten days from arrival of shipment. Every precaution is used to prevent errors, but if they occur we will promptly rectify them if claim is made promptly upon discovery of the error.

Deciduous Shrubs

BLOCK OF FLOWERING SHRUBS

Our system of growing Shrubs has resulted in obtaining bushes rather than spindly plants. Each and every bush can be subjected to a rigid and critical examination and will be found in extra fine condition both in regards to shape and size.

Spiraea

SPIRAEA VAN HOUTTEI
"Unxld" 1915 Block

We have one of the finest blocks of SPIRAEA VAN HOUTTEI ever grown. The plants are extra heavy, bushy, well formed and are just the thing for immediate effect; in fact landscape gardeners will be pleased to get this kind of stock. The price should be increased, instead of being decreased, but on account of our being overstocked and the fact that we must make room for the new planting we are offering the entire block of Van Houttei at a ridiculously low figure. This is an exceptional value and nurserymen will do well in pushing them.

OFFER EXTRAORDINARY

10,000 Van Houttei, 2-3 ft, \$6.00 per 100, \$40.00 per 1000
10,000 Van Houttei, 3-4 ft, \$7.00 per 100, \$50.00 per 1000

	Per 100

PARTIAL VIEW OF ONE OF OUR ROSE BLOCKS

Roses

Good, strong, field grown, budded plants, \$12.00 per 100. These roses have an exceptionally heavy root system and are very bushy.

We can dig and ship about the first week in November.

Through our connection with two of the largest growers in France and Holland, coupled with our years of experience in the European nurseries, we are enabled to buy the highest quality and in any quantity all of the latest novelties, as well as the standard varieties.

Orders for Holland and French grown nursery stock should reach us not later than the first of October.

When orders for domestic grown roses must be delivered in the fall, when stripping is necessary, an extra charge will be made of fifty cents per one hundred.

PRICES UPON APPLICATION

AS PHOTOGRAPHS ALWAYS SPEAK LOUDER THAN WORDS. WE HAVE REPRODUCED VARIOUS TREES, ROSES, SHRUBS, ETC., AS IT IS HARD TO REALIZE THAT SUCH SHRUBBERY AS WE HAVE CAN BE GROWN IN THE SHORT SPACE OF TIME THAT IT HAS TAKEN US. IN FACT A LEADING NURSERYMAN OF THE MIDDLE WEST, WHILE ON A RECENT VISIT TO OUR NURSERIES, MADE THIS STATEMENT: "I CAN HARDLY REALIZE THAT YOU HAVE ACCOMPLISHED THESE THINGS IN THE TIME YOU SAY YOU HAVE AND CERTAINLY WOULD NOT HAVE BELIEVED IT HAD I NOT SEEN IT MYSELF. I HAVE NEVER SEEN SUCH GROWTH AND YOU WILL CERTAINLY RECEIVE SOME GOOD SIZED ORDERS FROM US THIS FALL."
